# A New Deal for Housing

**The Government and key State bodies must now step in to deliver:**

- A State-led housing programme with a mandate to deliver affordable homes for all

---
- A new State body with responsibility for housing delivery

---
- Emergency measures to reduce homelessness and shorten time spent in emergency accommodation

---
- An end to 'no fault' evictions, a freeze on rents and long-term security for renters

---
- A legal Right to Housing.
