Dear Mr. Hasset,

I have been instructed to write to you in relation to access to drinking water for our members. I am aware our members have been refused access to water, with the exception of accessing it from the staff canteen and have been advised that if they are seen with water outside of this area, it will be confiscated.

Might I suggest a solution to the problem, that being a water station on the warehouse floor, where your employees can avail of water. This suggestion is both practical and cost effective, as it would save employees regular visits to the staff canteen.

You might recall I wrote to you on the 14<sup>th</sup> November last, seeking a meeting to introduce Mandate and to discuss our members terms and conditions. I would appreciate if you would contact the undersigned to arrange a suitable date.

I look forward to hearing from you.

Yours sincerely

---
